REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: applicant's claims, with the exception of the very narrow already allowed or objected to claims 43-45, 47-52 and 58, now all contain the limitation that the coating forms a peelable and non resealable closure having a cohesive strength of at least about 300 g/inch after being dried on a substrate at a temperature of at least 260 degrees F. These limitations find support in the specification in Paragraph [0005], the Summary of the Invention, as well as elsewhere (for the drying temperature limitation), and as shown, e.g. in the Examples section, lead to the claimed desirable properties. Applicant's are correct in their assertions (Response, e.g. page 14) that the prior art reference McCarthy fails to appreciate either this property as well as the accompanying problems which have been solved by the usage of a non self-crosslinking acrylic emulsion in the cohesive coating composition .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Zirker whose telephone number is 571-272-1486. The examiner can normally be reached on 5-4-8:30-6:00.
